

Emotional Support Dog - Neville Safety & Wellbeing Guide

Nev is an **active emotional support dog** and a **valued member of our college community**. It is important that we always uphold Nev's health and safety with the following tips:

1. Nev is to be **on a leash during school hours at outdoors campus events** (e.g. cross country, athletics carnivals) **with his fluro vest on**.
2. Ensure **clean, fresh water** is always accessible.
3. Please ensure you **do not feed Nev**. Some foods are harmful to dogs, please refrain from feeding Nev unapproved treats.
4. If there is **extreme weather** (storms, high temperatures), please **ensure Nev is housed in a safe, cool and dry area and not left alone**. (e.g. Do not walk Nev on hot concrete during summer or close him in a room alone)
5. Please ensure you **always have doggy waste bags and pick up after Nev immediately**. Ensure Nev has **easy access to outdoor areas to relieve himself** and handlers are aware of signs that Nev may need to go (e.g. pacing, standing at the door, whimpering)
6. If **another animal is on the campus grounds**, do not assume they are friendly. **Remove Nev from the area immediately** to ensure his and your safety.
